## Next Generation Virtual Training System

In today's volatile urban climate, judgmental training is more important than ever in the law enforcement field. Meggitt Training Systems, the LE leader in virtual and live-fire training, introduces a revolutionary portable system that makes judgmental and marksmanship training more accessible to law enforcement officials than any system on the market.

### Easy to transport

- ✔ Weighs less than 55 pounds
- ✔ Fits in the trunk of a police cruiser
- ✔ Housed in a durable, portable carrying case

### Easy to set-up

- ✔ Self-contained unit can be placed on the floor or installed via included ceiling mount
- ✔ The XVT system can be easily moved from one room to another
- ✔ Controlled via wireless touch screen tablet PC

### Easy to operate

- ✔ User-friendly graphic interface allows for intuitive operation and reduces instructor training time
- ✔ Supports wireless BlueFire®, tethered and Dvorak weapons
- ✔ Simplified lanes authoring courseware allows instructors to easily author their own marksmanship training courses

# Meggitt Training Systems

**Meggitt's Next Generation Virtual Training System provides exceptional LE training capability in a modern, portable package that sets up in minutes.**

Meggitt Training Systems offers advanced training technology in a self-contained, portable package that easily fits in the trunk of a police cruiser. The projector, scoring system and CPU components are self-contained in a streamlined case. The system is simply placed on the floor and set-up is complete. Alternatively, the entire system can be quickly installed to a ceiling mount. A compact touch screen tablet PC provides wireless instructor control for ease of use, while an intuitive graphic interface eliminates the need for lengthy instructor training. The widescreen HD display creates an immersive training environment which is critical to judgmental training.
